## **June 2008**

### **LIP and LCP Signup Announced**

The deadline date for the 2005-2007 Livestock Compensation Program (LCP) and Livestock Indemnity Program (LIP) has been set for July 18, 2008.

LIP provides payments to eligible livestock owners and contract growers who incurred the death of livestock because of a natural disaster. LCP provides payments to eligible livestock owners and cash lessees who suffered feed losses or increased feed costs because of a natural disaster.

Signup began on September 10, 2007 for the two programs that provide aid to livestock producers who suffered eligible livestock or livestock feed losses between January 1, 2005 and December 30, 2007 because of a natural disaster.

### **CDP Quantity payments**

Signup for the quantity (production loss) loss portion of the 2005/2007 Crop Disaster Program (CDP) began October 15, 2007 and continues. Although no ending signup date has been announced, we encourage all producers who have not yet signed up for CDP to do so as soon as possible. Payments will be delayed on all CDP production loss applications that are not approved and paid prior to receipt of the Quality loss software, which is expected to be issued around June 20, 2008. Signup dates for quality loss CDP applications will be announced in the near future.

## COC Election Approaching

Beginning **June 15, 2008**, nominations are being accepted for candidates for a County Committee (COC) position. A county or area served by the COC is divided into Local Administrative Areas (LAA). Each LAA is represented by one member on the county committee. Only one LAA holds an election each year. This year the LAA open in Daniels County is LAA #3, which is the Scobey area of Daniels County and presently represented by Alan Danelson. If you or if you know of a producer that lives in this LAA and is interested in serving on the COC, please complete this form and return it to the office.

### FSA Announces Critical Feed Program

FSA has announced the authorization of certain acreage enrolled under the Conservation Reserve Program (CRP) to be available for haying and grazing after the **primary nesting season ends which is August 1<sup>st</sup> in Montana**. No rental payment reduction will be assessed on contracts being utilized for the critical feed use. However, a \$75 fee will be charged per contract to process the contract modification. The fee must be paid prior to the local FSA county committee approving the contract modification. The fee is not refundable.

Beginning June 2, 2008, eligible CRP participants may sign up for the critical feed use practice at their local FSA office. Participants must submit a modification to their conservation plan. This modification for critical feed use is only for 2008. All haying and grazing must be completed no later than November 10, 2008. The critical feed use practice may be used on CRP acreage that was hayed or grazed in 2007 either under the Managed Haying and Grazing provisions or the Emergency Haying or Grazing provisions.

CRP participants may use their CRP acreage for haying or grazing or may lease the privilege to any other individual. CRP participants may not hay and graze the same acreage. CRP participants must leave at least 50 percent of each field unhayed. Only one cutting of hay is permitted. CRP participants wishing to graze their CRP acreage must leave at least 25 percent of each field ungrazed for wildlife or graze all of the CRP acreage at no more than 75 percent of the stocking rate as determined by the Natural Resources Conservation Service (NRCS) or a Technical Service Provider (TSP).

Eligible acreage includes acreage devoted to: 1) CP1, Establishment of Permanent Introduced Grasses and Legumes; 2) CP2, Establishment of Permanent Native Grasses; 3) CP4B, Permanent Wildlife Habitat – Corridors; 4) CP4D, Permanent Wildlife Habitat; 5) CP10, Vegetative Cover – Grass – Already Established; 6) CP18B, Establishment of Permanent Vegetation to Reduce Salinity; 7) CP18C, Establishment of Permanent Salt Tolerant Vegetative Cover. Acreage is eligible 12 months after the cover is fully established.

### Filing a Non-insured Crop Disaster Assistance Program (NAP) Notice-of-Loss

To qualify for assistance under NAP, production losses or prevented planting must have occurred as a result of an eligible cause of loss. An eligible cause of loss is any of the following:

- damaging weather, such as drought, freeze, hail, excessive moisture, or excessive wind; or
- adverse natural occurrences, such as earthquake or flood; or
- a condition related to damaging weather or an adverse natural occurrence, such as excessive heat, disease or insect infestation.

Wildlife damage and weeds are **not** considered eligible causes of loss under NAP.

A notice of loss must be provided within 15 calendar days after the:

- disaster occurrence or date damage to the specific crop acreage is apparent to the producer for yield losses;
- final planting date for prevented planting.

If a Notice-of-Loss is filed prior to the final planting date established for the specific crop, the producer is expected to replant the crop. If the Notice-of-Loss is filed after the established final planting date and the intent is to reseed to another crop intended for harvest, such as barley for grain, which is covered under crop insurance, a NAP payment cannot be received on the original failed crop.

Montana is not a double cropping state. If the intent is to destroy the crop, summer fallow it, or reseed to another crop **not** intended for harvest, representative strips must be left in the field so that a loss adjuster can be sent out closer to normal harvest time to appraise the original seeded crop. In this situation, the original seeded crop would still be eligible for a payment.

### Revised CRP Contracts

Producers who have not signed revised CRP contracts due to acreage changes should do so as soon as possible. Signatures must be received in the office within 60 days of revising the contracts or contracts must be terminated and all payments plus interest plus liquidated damages will be assessed. **Please sign and return them as soon as possible.**

### **2007 Census of Agriculture**

It is not too late to turn in your Census of Agriculture. USDA's National Agricultural Statistics Service (NASS) wants everyone who received a census form to return the form or call NASS toll free at 1-888-424-7828. Even if you are a landlord or have a few chickens or a horse, NASS wants to account for your form. Your information can be taken over the phone by calling the toll-free number.

For further information contact the Montana Ag Statistics Service at 1-800-835-2612.

### **2008 Crop Certification**

This year we will **not** be sending out appointment cards for reporting 2008 crop acreages. Please fill out your maps with each field marked for crop planted and date planted, including hay and grass for grazing acres and bring them into the office. We will load the information in the computer and notify you when to come back in to review the certification and sign it. We would like to remind you to round each field to the nearest tenth (example – 10.25 acres rounded to 10.3 acres and 10.24 acres rounded to 10.2 acres). **The certification deadline is July 15, 2008.**

### **Sodbusting vs New Breaking**

Producers are reminded that they should contact FSA **prior** to breaking any grass acres in preparation for planting an annual crop. Sodbusting is considered the breaking of native sod. This could include native pasture or old homesteads. New Breaking is considered breaking out grass acres that had been annually cropped in past years. This could include hay fields, sod waterways, saline areas, etc. In either case, producers should complete an AD-1026 at the FSA office **prior** to breaking. **Failure to complete this form and receive a review and determination from NRCS before planting the annual crop could cause an out-of-compliance determination and ineligibility for all USDA benefits for the current crop year.**
